Technical Expertise: Python, SQL, AWS, GitHub, R, Snowflake, SAS, Tableau, Power BI, Java, and C#

PROFESSIONAL EXPERIENCE

Progressive Insurance

Cleveland, Ohio

CRM Data Science, Analyst Rotational Program II

February 2024 - Present

- Developed a program that runs on Streamlit to extract and utilize NLP to summarize a customer's digital footprint
- Created a Python script that pulls transcript data and predicts the call intent and likelihood using GPT-4

Commercial Lines Business Intelligence, Analyst Rotational Program I

August 2023 – February 2024

- Built three Power App/Automate applications that streamline manual tasks and save 5-10 minutes of time each
- Developed Python ETL scripts that are used to generate 26 fact and dimension tables in Snowflake
- Converted a drill down SSRS report comprised of 18 queries into Power BI to improve filtering and performance

CRM Digital Insights, Analyst Rotational Program I

February 2023 – August 2023

- Discovered trends and patterns related to our customer personas and published a whitepaper regarding the insights
- Utilize SAS and Snowflake to extract, prepare and analyze Progressive's CRM data for Ad Hoc requests and A/B tests
- Developed an n-gram program in R and visualizations in Tableau to recommend improvements for Progressive's chatbot

Claims Business Intelligence, Intern

May 2022 – August 2022

- Developed a text mining program that cleaned IT ticket data and created dashboards analyzing the structured data
- Scripted SQL queries that aligned 51 tables between dev, QA, test, and prod environments in Progressive's OLTP server
- Added sixteen tables to Progressive's ad hoc server from the reporting server using SQL, Azure DevOps Pipeline, and SSIS

Deloitte

Cleveland, Ohio

Audit & Assurance Intern

June 2021 – August 2021

- Led client engagement meetings and documented client internal audit workflow and processes
- Created analytic reports with the use of client data, the Omnia accounting platform, excel, and Power BI software

Patriot Software

Canton, Ohio

QA Automation Engineer Intern

May 2020 – August 2020

- Performed manual and automated testing using C#, SQL, and GitHub for Patriot's Time and Human Resources products
- Executed SQL functions and scheduled tasks to test Patriot's Direct Deposit feature in Payroll
- Monitored TeamCity and debugged failing C# tests in Patriot's main development branch

The J.M. Smucker Company

Orrville, Ohio

Business Analyst Intern, Information Services

May 2019 – August 2019

- Test lead for the Smucker intranet and internet sites and established user acceptance testing framework to find defects
- Led meetings, business process mapped, and documented requirements for the Legal Custom Menu Project
- Built SQL queries and created an Oracle Express Application to pull reports from the Smucker database
